Revision of the Conservancy Establish ment of the Mysore City Municipality

No 7993 4C—Ml 13-16-26, DATED 20TH JUNE 1917

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No 272 of 19th May 1916 from the President Mysore City Municipal Council forwarding a proposition statement for the revision of Municipal Establishments involving an additional expenditure of Rs 22 024½ a year

2 Letter No 223 of 21st August 1916 from the same Officer urging the need for the revision of the conservancy establishment and submitting certain proposals for improving the finances of the Municipal Council in order to give effect to the revision scheme

Order No 7993-4C—Ml 13-16-26, dated 20th June 1917

Sanction is accorded to the revision of the conservancy establishment at an extra cost of Rs 1,345½ a month as detailed in the proposition statement, and to bringing it into effect from 1st July 1917, subject to any changes that may be considered necessary A statement showing the scale of establishment finally adopted may be submitted for record in the Secretariat and the Comptroller's Office

2 The proposals suggested for meeting the additional expenditure are the following —

1 Increasing the toll rates
2 Relieving the Municipal Council of the contribution to the Vanivilas Hospital
3 Reduction of the Municipal grant for education from Rs 15,000 to Rs 10,000 a year
4 Transfer of the Municipal Girls' Schools to Government
5 Transfer to Government of certain important roads
6 Special grant of a part of excise shop rent in the Mysore City

3 After careful consideration of the matter, Government are not inclined to agree to the proposals Nos (3) to (5) As regards proposal No 6, it is observed that the question is one of principle applicable to all the Municipalities and should be considered separately Proposal No (1) regarding the increase of toll rates has been already disposed of and the attention of the President is invited to this Office letter No 6973—Ml 158-14 10 of 2nd May 1917

4 With regard to the remaining proposal No (2), Government direct that the Mysore City Municipal Council be relieved of the contribution to the Vanivilas Hospital amounting to about Rs 4,711 a year The Municipal Council should take steps to levy a general sanitary cess at 2 per cent on the annual rental value of buildings and to enhance the present rates of animal and vehicle taxes so as to bring them to the level of those obtaining in the Bangalore City in order to make up the deficiency in the amount needed for the revision of the establishment This measure is expected to yield an income of Rs 15,000, and with the relief of the contribution towards the Vanivilas Hospital, a sum of about Rs 20,000 will be available for expenditure on revision of establishment now sanctioned

5 The revision of the remaining establishment of the Municipality may be taken up for consideration when the finances of the Municipality permit it

-:ಪೌ:ಪೌ:ಪೌಪೌ ಪೌ.ಪೌ.

Municipal Administration Report of the Mysore City Municipality for the year 1916-17.

PART I.- CONSTITUTION & WORKING OF THE MUNICIPALITY.-

1. Name of Municipality. The Municipality is known as the Mysore City Municipal Council and is governed by Regulation No.VII of 1906 as in the previous year.

2. Municipal boundaries and area.- The boundaries and area of the Municipality during the year remained the same as in the previous year, the area being 9·5 square miles. Appendix I. furnishes details under this head.

3. Constitution of the Municipal Council.- During the year under report the Municipal Council consisted of a President 2 Vice-Presidents and 17 Councillors of whom 10 were elected and 7 nominated by Government of whom 5 are non officials.

Charge of Office.- Mr T G Lukshmana Rao, L.C.E , continued to be the President of the Municipal Council.

Mr. G. Narayana Rao,B A., B.L , Was the Senior Vice-President

2. Mr. C. Narasimhaiya, B.A., B.L.,
3. Mr. M.S.Krishnaswami Rao.

CHAMARAJ.- 1. Mr. B.R.Krishnamachar, B.A., B.L
2. Mr.A.Krishna Rao,B.A., B.L.,

DEVARAJ.- Mr. M.H.Rangaiengar.,

MANDI.- 1. Mr. K.G.Naraakar.,
2. Mr. Abdul Aziz Pasha.

LASHKAR .- 1. Mr. K. Chendrasekariah,B.A., B.L.,
2. Mr. Charles Theobald.

Appendix II shows details under this head

6.HOUSES.- The total number of houses at the close of the year was 14,532 as against 12,650 in the previous year. The increase is due to new buildings constructed during the year and also to the omission to include houses enjoying exemption of assessment and separate houses for which sub numbers had been given in the accounts of last year. From this it will be seen that building operations in the City are progressing satisfactorily. Taking the population of the City as 71,306 according to the Census of 1911, the average number of inmates in each house comes to 4.91 as against 5.63 in the previous year . But according to the occupation Census taken during the year the population of the City was found to be 67,496 of whom 18,009 are the persons that follow definite occupations in the City

Appendix No. III furnishes - under this head.

7. Working of Committees.- The following Committees worked during the year.-

1. The Managing Committee.
2. The Health Committee,
3. The School Committee,
4. The Water Supply and Lighting Committee,
5. Market-Town Hall Committee,
6. Buildings, Roads and Avenue Committee,
7. The Committee to devise means for the convenience of visitors and Travellers.
8. The Audit Committee.

1. The Managing Committee.- This consisted of 9 members all of whom were Municipal Councillors. It met 27 times during the year against 28 times during last year and disposed of matters pertaining to Municipal Finance etc., and also submitted recommendations in matters referred to it for decision or report. It may be noted here that the members of this Committee took a keen and active interest in the disposal of questions brought before them.

2 The Health Committee.- This consisted of 9 members of whom 6 were Councillors and 3 non-Councillors. Two more members were appointed as resolved by the Council in the month of May 1917.-and they were also Councillors. It met 10 times during the year against 6 times in the previous year, and discussed matters relating to Public Health, Sanitation etc , The average attendance of official and non-official members was 50 percent and 41-11 per-cent respectively.

3. The School Committee .- The School Committee consisted of 9 members including 3 non Councillors.

The Committee met 11 times during the year as against 10 times in the previous year & discussed with other matters also relating to compulsory Education scheme in the City and the re-organisation of Municipal Schools.

4. The Audit Committee. Government having in their order No. 5212-25/M1.126-15-2 dated 18th January 1916 sanctioned the formation of an Audit Committee, this Committee, met 11 times during the year and attended to the work of Municipal Finance, accounts etc. It consisted of 3 members all of whom were non-official Councillors. The members of this Committee have very carefully scrutinized the accounts of the Council and thus set right several mistakes and omissions found therein. The want of an adequate and efficient staff in the several departments has been the means of a large number of avoidable errors and omissions. A scheme for revising the staff is under the considera-tion of the Council and will be submitted to Government soon.

5. The Town Hall Committee.- The Town Hall Committee was combined with the Market Committee during the year. The work of this and other Committees was also fairly satisfactory.

8. Bye-laws, rules, and Regulations. Appendix IV furnishes details under this head. The following Bye-laws under the Municipal Regulation submitted to Government were sanctioned during the year.

1 Bye-law under Section 48 JJ. regarding the Registration of vehicles.

2. Government Order No. 1060-9/M1 79-14-51 dated 3rd August 1916 reducing the duty on betel leaves from pies 2 to pie 1 per 100

3. Government Order No. 5806/M1.151-16-5 dated 7th March 1917 regarding the taxes leviable on double and single - bullock carts.

The kanada translation of all the bye-laws was completed and printed during the year at a cost of Rs. 185/-

9 Fresh imposts, taxes & fees etc. No fresh taxes/or imposts were levied during the year. Proposals for the levy of separate Drainage cess for the maintenance of underground sewage system and a general sanitary cess are under consideration. The question of raising the tax on vehicles and animals in conformity with the rates prevailing in Bangalore City is also under the consideration of the Council.

10. Assessment and taxations.-

The assessment survey work being completed in the previous year, the work of calculation of the area was undertaken during the year.

11. Demand and Collection and Balance.-

The total demand including arrears was 2,67,214/- rupees as against Rs. 2,94,913/-in the previous year. The current demand was Rs. 2,51,932/- against

against Rs. 2,64,833/- in the previous year. Appendix V furnishes details under this head.

The total collections under all heads was Rs. 2,44,081/- as against - Rs. 2,67,016/- in the previous year. Of this Rs. 2,38,711/- or 94.75 was for the current demand and Rs. 5,370/- was - towards arrears. Arrears of assessed taxes aggregating to Rs. 804/- having been found irrecoverable were written off the account during the year. The decrease in collection is mainly due to non adjustment of contributions from Government.

Of the balance of Rs 22,329, Rs.9,108/- are balance of arrears of previous years and Rs 13,221 /- balance at the end of the year. This balance includes the shop water tax sanctioned by Government during the year about which the people are complaining and which amounts to Rs. 1,860/- and 860/- tax on buildings to be recovered from Government. The prevalence of plague of a serious nature during the greater part of the year and of Cholera in the latter part, is the chief reason for the shortage in collection as several people in almost all the mohallas had evacuated their houses on account of these epidemi-cs Excluding Octroi and tolls, the demand under other heads amounted to Rs 71,746/- as against Rs.83,828/-

in 1915-16. Of this Rs. 52,29\
72.8 percent was actually collecte
only Rs. 804/- or a little more than \n
por cent was remitted. While in 1915-16
out of a demand of Rs. 83,828/- only
Rs. 58,234/- or 69 2 per cent was -
actually collected and Rs.12,615/- or
nearly 15 per cent was remitted. Thus
it will be seen that though the balance
appears larger than last year, the col-
-lections are really better in spite of
the serious draw backs mentioned above
14 civil suits were filed for recovery
of taxes and 9 resulted in decrees and
4 are pending and 1 was settled out of
Court. The fact that even after -
decrees were passed, the taxes are not
paid shows the urgent need for more
stringent processes for recovery of taxes
from refractory persons. Some such
provision as exists in Madras and the
Civil and Military Station Municipality
-es for prosecuting habitual defaulters
in criminal Courts as already proposed
in the list of amendments to the -
Munic-ipal Regulation submitted to
Government is necessary.

Appendix VI shows the incidence of taxation per head of population which comes to Rs. 2-6-10 as against Rs.2-9-1 in the previous year.

PART II.- FINANCIAL POSITION.

13. Financial position.- Appendix No. VII explains in detail the financial position of the City Municipality. The year opened with a balance of Rs. 37,481/- as against Rs. 53,904/- in the year pre-vious. The total receipts during the year from all sources was Rs. 2,44,081/- as against Rs.2,42,016/- in the previous year, as audited by the Comptroller. After the current year's figures are audited and adjusted by the Comptroller, it is expected that the receipts would go still higher. The total expenditure during the year under report was Rs. 2,39,990/- against Rs.2,45,415/- in the previous year. The closing balance at the end of the year comes to Rs. 41,572/- as against Rs.49,605/- of last year besides Rs.26,778/- deposited in the Bank of Mysore Ltd.

PART.- III. RECEIPTS.

14 Octroi.- The only change in the list of dutiable articles is the reduction of tax on betel-leaves from 2 pies to 1 pie on 100. The total amount of duty collected during the year was Rs. 92,639/- as against Rs.93,556/-.

7 cases of smuggling were detected in which 10 culprits were involved.

Of these 6 were convicted, 2 were acquitted 1 was pending and 1 was unknown. A sum aggregating to Rs. 65/- was recovered from them as fines imposed in the bench Magistrates Court and Rs. 102/- were realized from the sale of property produced in Court.

Appendix VIII A and VIII B furnishes the required particulars under this head.

15. Taxes on Houses, Buildings, and Lands etc.

Taxes on Houses, Buildings, and Lands etc . The total demand under this head including arrears was Rs. 99,956/- as against Rs.1,15,693/- in the previous year. Out of this a sum of Rs. 80,507/- was actually collected and Rs. 804/- found irrecoverable was written off the accounts. So that the actual recoverable balance at the close of the year was Rs. 18,645/- The percentage of collection to the demand comes to 81.3 as against 88.2 in the previous year. Excluding remissions the actual collections are higher than in last year as shown in para 11 supra.

16. Pounds.-

The income derived from cattle pounds during the year was Rs. 4,070/- against Rs.2,414/- in the previous year. With a view to put down the nuisance caused by stray cattle to Motorists and others, a special staff of 8 coolies on Rs. 7/-

each and the system of awarding ¼ of the fines as reward to other impounders were continued during the year. This has resulted in an increase in the pound revenue and also in putting down the nuisance of stray cattle to a great extent.

17 PUBLIC CONVEYANCE.- The rules under the Public conveyance Regulation worked well during the year and the special Inspector - appointed for the purpose also worked satisfactorily. A sum of Rs. 429/- as license fees was collected during the year as against Rs. 527/- in the previ - -ous year.

18. Revenue derived from Municipal property and powers apart from taxation.- The income under this head was Rs. 24,233/- against Rs.22,695/- in the previous year. Appendix VIII furnishes in detail the required information.

19. D.Grants and contributions. Adjustments affected under this head have been intimated by the Comptroller to the extent of Rs.6,009/-. Besides the above a sum of Rs. 500/- has to be received from PALACE for the conservancy and lighting charges of MIRZA ROAD. The charges for the - following items due to Municipality are also pending adjustment at the end of the year.

1. Part of license and surcharge fees.
2. Road repairing charges.
3. Moiety of the Plague charges.

City during the year as at the close of the previous year and the amount spent therefor was Rs. 3,053/- as against - Rs. 3,822/- in the previous year . A recommendation has been made to Government to replace these lights by electric lights .

24. Rewards for destruction of wild animals.- A sum of Rs. 216/- was spent as rewards for the destruction of stray and rabid dogs and snakes as against Rs.196/- spent in the previous year. 847 stray dogs and 63 snakes were reported to have been killed during the year.

25. C.Public works executed by the Public Works Department.- No works of the Municipality were executedby the P.W.D. during the year.

26. D Public works executed by the Civil Department. The total expenditure incurred under this head during the year was - Rs. 42,292/- against Rs. 57,991/- in the previous year.

ORIGINAL WORKS.- Under original works Rs.6,456/- was spent during the year against Rs.9,128/ in the previous year. The following were the chief works carried out during the year

1. Construction of Chamaraj Market. Rs. 1,624/-
2. Construction of stalls in Lakshmivilasa Road. Rs. 352/-
3. Construction of Mutton stalls in Krishnaraja Mohalla Rs. 315/-
4. Construction of sweepers' huts in Jalapuri Rs. 431/-
5. Opening out a new Burrial ground for the Chamundi Extention. Rs. 1,781/-

TOOLS AND PLANT.- A sum of Rs. 221/- was spent during the year for the purchase of tools an

and plant as against Rs. 544/- in the previous year.

27. ROADS.- The total expenditure incurred under this head was Rs.29,907/- as against Rs. 29,994/- in the previous year. During the year under report 7½ miles of important roads of different width were metalled and one mile was gravelled. 10 miles of lanes were opened or repaired both by Kalihath Gangs and under special estimates.

28. DRAINS.- 434 running feet of tunnels and 872 feet of both masonary and slab drains were built during the year at a cost of Rs. 2,027/- as against Rs.2,752/- of last year.

29. WATER SUPPLY AND MAINTENANCE.-

The Vani Vilas water Works continued to be under the Management and control of the P.W.D., the Municipality as usual paying only the general water rate recovered on lands and buildings and excess water charges from house connections.

The water supply in the City cannot be said to be adequate as there is a great demand for more public fountains. A comprehensive scheme of water supply for the whole City is pending before the CHIEF ENGINEER. As no definite orders are received, the complaints from the people are becoming louder and more incessant.

The number of private house connections given during the year was 98 against 106 in the previous year. The total number of public fountains existing in the City at the close of the year was 366.

30. BUILDINGS.- As stated in para 26 supra a sum of Rs. 6,456/- was spent on original works as against 9,128/- in the previous year.

E. PUBLIC HEALTH & CONVENIENCE.

31. CONSERVANCY.- The Health Officer continued to be in charge of the conservancy Department. There were no changes in the number of public Latrines during the year. The proposal to introduce daily conservancy system for the whole City is under consideration. Vigorous measures are being adopted to convert all pit privies into daily conservable latrines. The total amount spent under this head was Rs. 49,126/ against Rs. 47,987/- of last year.

PUBLIC HEALTH. The Public health of the City was rather unsatisfactory during the year as both plague and cholera prevailed during different parts of the year.

PLAGUE.- There were 1,089/- attacks and 776 deaths from Plague during the year against 33 attacks and 25 deaths in the previous year. The disease unlike in the preceding year broke out in an epidemic form and was severe. A special inoculation staff was entertained for the purpose during

during the year and they not only inoculated the people but also went round the City preaching and explaining to the inhabitants the advantages and benefits they would derive by inoculation.

It is really gratifying to note that more than one tenth of the population of the City was inoculated during the year under report. Special arrangements were also made to inoculate GHOSHA ladies through the LADY ASSISTANT SURGEON of the Vani Vilas Hospital.

The total number of inoculations performed was 8,447 against 5 in the previous year, of these 5,854 were males and 2,593 were females.

There were only 9 attacks and 2 deaths among the inoculated (8,447). During plague season all possible facili-ties were afforded to the public by way of running temporary sheds etc., in Idiga, Ittigegud, Nazarbad, Chamundi and the new Jalapuri Extensions which were readily availed of by the people.

In addition to all these arrangements, leaflets on plague in English Kannada , and Hindustani were prepared and distributed to the people.

During the year under report, the Isolation Hospital and the Health Office were connected with the general Telephone

and Hindustani were prepared and freely dist-ributed to the Public and were also hung up in conspicuous places in POST OFFICES, RE-ading rooms , Police Stations, and in other Public places. Packets of Permanga-nate of Potash were specially got distri--buted by a temporary staff entertained for the occasion.

At the request of the Principal Maharaja's College, a lecture on Cholera was arranged and delivered by the Health Officer to the students of the College. One Assistant Surgeon and one Sub-Assistant Surgeon were specially deputed for Cholera duties during the season.

33. SANITARY PROGRESS & DEFECTS. As in the previous years all major works were done by the Improvement Trust Board and the Municipality attended only to minor defects. The Sanitary Inspectors made 27,446 inspections of houses during the year as against 18,863 of last year in connection with internal sanitation. 575 notices under various sections of the Municipal Regulation were issued to abate sanitary nuisances.

80 cases were instituted by the Sanitary Inspectors under various sections of the Municipal Regulation of which 35 ended in conviction , 28 in acquittal and the rest 17 were withdrawn as the parties complied with the terms of the notice. Of the total number prosecuted 11 were in connection

connection with registration of Births and Deaths.

The special staff appointed for anti-mosquito work continued during the the year and did much useful work by assist-ing in closing a large number of disused wells and by providing trap doors fitted with wire netting to the mouths of other wells to make them mosquito proof and by draining and filling up many pools etc., where mosquitoes were found to be breeding.

LOCAL FUND DISPENSARIES AIDED BY THE MUNICIPALITY.- The number of local Fund Dispen--saries remained the same as last year, i.e 1 in Erangere, 1 in Old Agrahar, 1 in Nazarabad and 1 in Weaver's Line.

35. MIDWIVES & MATERNITY.- There were eight midwives during the year against seven in the previous year including 4 midwives attached to the Vani Vilas Hospital. The total number of cases attended to by them was 753 against 638 in previous year. The midwives are reported to have worked satisfactorily. Appendix NO XIV gives details under this head.

36. INDEGENOUS HOSPITALS, HINDU VAIDYASALAS, VAIDYAS, HAKIMS etc. There were 5 indegenous Hospital during the year as against 4 in the previous year. The total cost incurred under this head as well as for Local Fund and other Dispensaries was Rs.9,554/- against Rs.9,616, in the year previous. The total number of patients that were treated were 2,92,234/

against 2,58,944 in the previous year. Appendix XIII furnishes details under this head.

37. OTHER MEDICAL INSTITUTIONS SUBSIDISED FROM MUNICIPAL FUNDS. The Municipality continued to contribute ---- of the cost of the Vani Vilas Hospital in the City.

38. PLAGUE, CHOLERA & OTHER CHARGES. Details under this head have been furnished in para 31. In addition to the above, the public water supply was examined once a week and during CHOLERA season, it was examined every day particularly for Cholera infection in the - laboratory attached to the Health Office.

SMALL POX.- [illegible] 12 persons were attacked with small-pox during the year against 34 in the previous year. The number of deaths among them were 10 and 12 respectively. Of these 2 attacks and 2 deaths were imported. The usual preventive measures such as vaccination and disinfections of infected houses were resorted to.

39. VACCINATION.- Vaccination continued to be compulsory as in previous years. 5443 persons were vaccinated during the year against 5,437 in the previous year. Of the total number vaccinated 4,466, 373, and 604, were respectively successful, un-successful and unknown. No untoward result was noticed among the vaccinated as the lymph supplied by the Vaccine Institute was good.

1333 houses were disinfected

disinfected during the year for Plague, Cholera and small-pox etc. Of these 687 were for plague, 90 for suspicious fever, 81 for dead rats, 123 for Cholera 62 for suspicious Diarrhoea.

40. VETERINARY CHARGES.

The total number of cases that attended the Hospital in the year under report was 13,043 against 13,172 in the year previous giving an average daily attendance of 35.7 as against 36.1 in the previous year. Of these the number of fresh cases was 4,021 against 3,598 in the previous year. There were in all 321 operations during the year as against 316 in the previous year of which 81 were for castration and 36 in-patients as against 46 and 31 in the previous year respectively. The work of shoeing horses has been made a branch of the Hospital Work. The total amount collected during the year was Rs 193 as against Rs 106 in the previous year.

The Municipality contributed Rs. 140/- during the year as against Rs 104/- in the previous year towards the maintenance of the Hospital.

The Building and the locality in which the Hospital is situated are quite unsuitable for the purpose. A good building of an up-to-date design in a good locality is an immediate necessity.

41. REGISTRATION OF BIRTHS and DEATHS.

The total number of Births and Deaths was 3,467 and 3,153 during the year

year as against 2,371 and 1,988 respecti-
-vely in the previous year. The ratio
for 1,000 births was 34.59 as against
33.25 of last year. The ratio per 1,000
deaths was 44.2 against 27.8 in the previou
year. The increase in the number of
deaths was due to the out break /plague
and cholera in the City.

INFANT MORTALITY.- During the year there were 412 deaths among children under 1 year against 398 in the previous year, just giving a ratio of 167-004 against 167-86 for 1,000 births registered. Out of those deaths 216 were among male and 196 among female.

MARRIAGES.- During the year under report 268 marriages were registered by the Department as directed by Government in Their Proceedings No. 1025-75/SAN.75-13-23 and 6644-714/San.71-15-3 dated 5th August 1915 and 10th March 1916 respectively infor-
-mation being collected by the conservancy staff and the Registrars of Births and Deaths.

42. PUBLIC GARDENS & BUILDINGS.- The Rangacharlu Memorial Hall and Peoples' Park continued to be in charge of the Municipality and a sum of Rs. 1,878 was spent for their maintenance as against 1,840 in the previous year. The excess expenditure is due to purchase and supply of seeds and plants to the Park.

43. MARKET & SLAUGHTER HOUSES.- There were 3 Markets including the small market in the Vani Vilas Road

Road and 2 slaughter houses under the Municipality, and a sum of Rs. 1,329/- was spent for their maintenance as against Rs. 1,309/- in the previous year. The revenue realised under this head was Rs. 13,455/- as against Rs. 13,298/- in the previous year. The increase was due to better collection as a result of strict supervision.

The affairs of the Market and Town Hall were managed by a special Committee appointed for the purpose. The Markets were regularly inspected by the Officers of the Health Department and all rotten foods and vegetables etc. unfit for use were got destroyed. The vendors were forced to expose foods, sweets, cut fruits etc., only in glass Show-cases. The slaughter houses continued to be under the supervision of Health Officer assisted by the Veterinary Inspector and the system of slaughtering animals in the evenings was continued during the year. 48,699 animals were slaughtered during the year against 42,868 in the previous year.

(44). AVENUES.-

The services of the Avenue Inspector entertained during the previous year were continued during the year under report, and the comprehensive scheme prepared for planting the avenue trees in all important roads in the City is being

being worked out by the Trust Board. The cost incurred by the Municipality in this direction was Rs. 1,103 for planting and maintaining 914 avenue trees as against Rs. 1,221/- spent in the previous year.

45. FAIRS & FESTIVALS.- The total amount spent under this head during the year was Rs.4,775/- against Rs.3,841/- in the previous year. The increase is chiefly due to increase in the rates of decoration articles etc.

46. SEWAGE FARM.- No sewage farm was being maintained during the year by the Municipality and it is proposed to take over the septic tank and its distributory channels from the Trust Board and to work the sewage Farm thereunder.

F. PUBLIC INSTRUCTION.

47. MUNICIPAL & GRANT-IN-AID SCHOOLS.- The total number of schools during the year in the City was 26 against 29 in the previous year, of which 6 were purely Municipal schools and 20 grant-in-aid schools. The total cost incurred for these schools during the year was Rs.7,511 as against Rs. 10,696/- in the previous year. The reason for the decrease in expenditure is due to the introduction of compulsory Education scheme by which some of the grant-in-aid schools were taken under Compulsory Education scheme and the st withdrawal of grants paid to pial schools.

At the beginning of the year under 6

under report there were 7 schools under Compulsory Education scheme, 7 more were added during the year thus making a total of 14 schools under compulsory Education scheme at the close of the year. Appendix XVII furnishes details under this head. These schools were maintained from State Educational Funds.

According to the census taken during the year of boys of school going age, the total number of boys was 4,012 of which 2,712 were attending schools and 1,300 were found not attending any schools. Steps are being taken to see that these 1,300 boys also attend schools and take regular course of instruction.

G.CONTRIBUTIONS & GRANTS-in-AID.

48. PUBLIC READING ROOMS & LIBRARIES.

No expenditure was incurred under this head during the year.

H.MISCELLANEOUS

49. INTEREST ON DEBT.- No interest had to be paid during the year as the amount due by the Municipality to the Government is fully paidup.

I. PUBLIC DEBT

50. FIXED DEPOSIT.- A sum of Rs. 26,778/- was kept as fixed deposit in the Mysore Bank Ltd. as per Government Order No. 3995-8/Ml.97-14-10 dated 1st December 1915, and interest at 5 % per annum is being realized and added on to the principal amount once in 6 months.

PART V. MISCELLANEOUS

51. PUBLIC HEALTH.- This subject has been fully explained in Para 38 supra. In addition to the above, the most important work of providing windows to all ventilated houses in the City was continued during the year. 4,831 windows without shutters were fixed to private houses to admit free light and air of which 1,330 were supplied by the Municipality and 3,501 were put up by the people themselves.

BUILDING LICENSES.- Building operations in the City having steadily increased, the two Building Inspectors appointed during the previous year were continued during the year under report. They not only supervised all buildings under construction and executed encroachments and deviations from sanctioned plans, but also readily attended to license applications.

LICENSE APPLICATIONS.- There were 2,313 license applications during the year of which 2,126 were for construction of buildings and repairs and 187 under Hackney carriage rules of which 1,053 were granted, 137 were refused and 80 were pending disposal at the end of the year.

52. AUDIT OF ACCOUNTS & EMBEZZLEMENTS.- As usual the monthly accounts of the Municipality were audited by the auditors of the Local Audit Committee in the form prescribed by the Government and they audited the accounts of the year

year under report, and no cases of embezzlement of Municipal Revenue were detected.

CIVIL SUITS.- There were 14 civil suits filed by the Municipality during the year for the recovery of Municipal dues of which in 9 cases decree was passed in favour of the President, 4 were pending at the close of the year and one was settled out of Court. Appendix XVIII furnishes details under this head.

PROSECUTIONS.- 105 cases including 19 cases pending at the beginning of the year involving 109 persons were prosecuted during the year of which 39 were convicted 46 acquitted, 19 withdrawn and 5 pending. The amount of fine imposed was Rs. 111/-.

GENERAL REMARKS.- It will be observed from the foregoing that the period under report was one of great activity and substantial progress in spite of the prevalence of Plague and Cholera during the greater part of the Year. From a comparision with the reports of three previous years, it will be seen that progress and improvement have been steady and continuous. The different committees appointed not only worked with interest and Zeal but were a source of real help to the executive. Primary Education under Compulsory Education Scheme has made substantial progress. Vigorous

Vigorous measures were taken for the col-
-lection of long standing arrears and
such of the items as were found absolutely
irrecoverable and entitled to exemption
were written off the accounts. In spite
of the prevalence of Plague and Cholera
particularly during collection season,
the collection was satisfactory as shown
in para 11 supra. Effective measures
were adopted to collect not only the
current year's demand/but also the old
arrears. the prevalence of the epidemics
above mentioned having seriously hindered
better progress. The substantial -
increase noted under Octroi continued to
be maintained in spite of adverse seasonal
-war and other conditions. This was due
to vigilent supervision and strict control
over the Octroi Department. A large numbe
of cases of smuggling taken to Court shows
the effectiveness of measures taken under
this head. During the year under
report, it is unfortunate that the health
of the City, was rather un-satisfactory
owing to the prevalance of plague and
cholera in an Epedemic form . Every
endeavour was made by the Health -
Department to combat the diseases.

With a view to give increased
representation to the different mohallas
which are expanding on all sides by the
formation of new extensions, and to give
effect to the orders of Government on the

the Local Self Government scheme to increase the proportion of elected Councillors , the Municipal Council proposed the raising of the number of elected Councillors from 10 to 20 and increasing the total number to 30. This was approved by Government. Ten additional Councillors, were elected during the year and their elections were duly approved by Government. These Councillors will join the Council from July 1917. The non-official Councillors continued to evince much interest in the Municipal Administration and greatly helped the executive with their valuable suggestion and advice. The system of weekly inspections of mohallas with the Municipal Councillors was continued and has been the means of affording opportunities for the public to have their complaints attended to promptly. It may be also mentioned here that the new school constructed by Mr. Dharmaprakasha Banumiah was opened by His Highness the Yuvaraja of Mysore and the Girl School constructed by Mr. Lokasevanirabha Mr. Amble Anniah Pandit was completed during the year and handed over to the Maharani's College Committee. The construction of a Student's Home by Mr. Mannar Krishnasetti, a Dispensary by Mr. N. Krishnaswami Rao, and a Chattram by Alamma, wife of J K. Narasimiah are nearing completion and will

revision of establishment proposed.
will be fit for use very soon.

With a view to improve the efficiency of subordinate staff of the Municipality by providing adequate remunerations consistent with the present rise in prices of food grains and other necessaries of life and also to provide sufficient number of sweepers and conservancy carts for the effective conservancy of this ever expanding Municipality, a comprehensive scheme for the revision of establishment was prepared and submitted to Government for sanction. As the Government have sanctioned only the conservancy establishment, the propos to increase the pay and allowance of the subordinate staff having been deferred for finding ways and means to meet the cost. The subject of finding out new sources of revenue to augment the resources of the Municipality and to provide for the extra cost for improving the subordinate staff, is engaging the consideration of the Council and definite proposals will be submitted in due course. As at present the Municipality is under manned and the officials are low paid, great difficulty is felt and efficient work cannot be expected. In spite of inadequate remuneration, the staff have showed much interest in their work in anticipation of Government sanctioning the revision

revision of establishment proposed.

GEPM—25—6-6-1916

Proceedings of the Government of H E.
the Maharaja of Mysore.

Read -- of

The Administration Report of t
Mysore City Municipality for the year
1916-17 received with the Presidents
letter No.57 dated 5th October 1917.

Order thereon -- No. 2807-9
Dated, 20 11 17. 96-17-20

Constitution of the Council. In order to increase the proportion of elected councillors in accordance with the Local Self Govt. scheme, the strength of the Municipal Council was raised from 20 to 30 and all the additional seats were filled up by election.

Meetings and attendance. In addition to 12 ordinary and 4 adjourned meetings the Municipal Council held 6 special meetings during the year. The attendance of non-official members showed a slight decrease as compared with the figures of the previous year. The percentage of attendance among official members was only 73 per cent. Government observe that the attendance of official members at the meetings should be more regular.

3. Committees. The Managing Committee met 27 times during the year and evinced great interest in the disposal of questions referred to them.

The other Committees also did useful work during the year.

Demand, Collection and Balance.

Out of the arrears of Rs.12,979 under all items of taxation except octroi and tolls a sum of Rs.4121 was collected and ~~forgot~~ Rs.804 remitted as irrecoverable. Out of the demand of Rs.58,767 under current year's taxes a sum of Rs.10,591 was left uncollected The prevalence of plague in a serious form during the year accounts for the large outstandings at the end of the year. It is hoped that every endeavour will be made to reduce the arrears soon.

9. Grants and contributions. The contributions due to the Municipal Council in respect of the road repairing charges and plague charges, and a portion of the income from the arrack licenses and surcharge fees, remained unadjusted at the end of the year The Comptroller is requested to issue definite instructions for the prompt adjustment of the contributions once every month or quarter.

Water-Supply. The attention of the Chief Engineer is invited to para 6 of the Government Review of the previous year's report and he is requested to expedite the question of supplying more public fountains to the city.

. **Vital Statistics.** The total number of births and deaths during the year was 3467 and 3153 against 2371 and 1988 respectively in the previous year. Both plague and cholera prevailed during the year in a severe form and accounted for 776 and 104 deaths against 25 and 1 deaths respectively in the previous year. Vigorous measures were adopted to prevent the spread of the epidemics

8. **Public Instruction.** Besides maintaining 6 schools the Municipal Council subsidised 20 grant in-aid schools. The total cost incurred was Rs.7511 against Rs.10,696 in the previous year. The decrease is due to the withdrawal of grants to pial schools and the conversion of certain grant-in-aid schools into Government schools under the compulsory education scheme.

Revision of Establishment. The revision of the conservancy establishment was sanctioned at the end of the year and proposals for the revision of other establishments were deferred till the finances of the Municipal Council improved. In order to provide additional funds to effect the revision of the conservancy staff the Municipal Council have been relieved of their obligation to contribute towards the maintenance of the Vanivilas Hospital and advised to augment their income by raising the rates of taxes

on vehicles and animals and by levying a general sanitary cess (Vide G.O. No.7993-4E/M1.13-16-26 of 20th June 1917)

(*Continuation sheet draft form.*)

2 Appendix VIII The final figures as shown in appendix II of the Annual Return for 1935-16 should have been noted in the column for 15-16 The correct balance should be calculated and noted in the Report of the current year.

3 Appendix IX The 8 house applications which were pending on 30-6-15 have not been entered in this statement

4. Appendix X

The rates of octroi on timber do not agree with those sanctioned in G O 2017-8/ML 86-15-2 of 6-9-15 The other rates of taxation differ from those given in the appendix of the previous year and on pages 199 to 209 of the Annual Manual of bye and bye-laws published by the Municipal Commissioner

The correct rate of water tax
on shops and of lighting
tax on buildings and
vacant lots may be noted
The correctness of the rates
of taxes and charges
on sheep and bulls
brought for slaughter
may be verified. The
rates of Public Conveyance
licence fees may be noted
correctly as given in the
Public Conveyance Rules
A revised appendix may
be prepared and sent
after due verification
of the figures by the Vice-Presidt
Appendix XIII & XIV. The expenditure
shown in Columns 17 and 18
of appendix XIII and in cols 23 & 24 of appendix XIV
should agree with that
given in appendix VIII
The discrepancy should
not

MUNICIPAL ADMINISTRATION REPORT OF THE MYSORE CITY MUNICIPALITY FOR THE YEAR 1916 17

PART I —Constitution and Working of the Municipality

1 *Name of Municipality* - The Municipality is known as the Mysore City Municipal Council and is governed by Regulation No VII of 1906 as in the previous year

2 *Municipal boundaries and area* —The boundaries and area of the Municipality during the year remained the same as in the previous year, the area being 9 5 square miles Appendix I furnishes details under this head.

3 *Constitution of the Municipal Council* —During the year under report, the Municipal Council consisted of a President 2 Vice-Presidents and 17 Councillors, of whom 10 were elected and 7 nominated by Government and of whom 5 are non-officials

Change of Office —Mr T G Lakshmana Rao, L C E , continued to be the President of the Municipal Council

Mr G Narayana Rao, B A , B L , was the Senior Vice President throughout the year

Dr A K Pani, D P H , etc., continued to be the Health Officer of the City and Vice-President in Sanitary matters

Mr E Ramaswami Iyer, was incharge of the Municipal Engineer's Office

4 *Meetings and attendance* —The ordinary monthly meetings of the Municipal Council were held regularly during the year In all there were 22 meetings of which 12 were ordinary, 4 adjourned and 6 special The average attendance of both the official and non-official members at the meetings, was satisfactory being 3 68 and 11 59 as against 4 10 and 11 63 in the previous year

5 *Elections* —In pursuance of Government Order No 6485 6—203-16-2, dated 7th April 1917 regarding the election of additional Councillors, 10 additional Councillors were duly elected in the month of June, 1917 and their elections were approved by Government The names of Councillors elected for different mohallas are given hereunder —

Krishnaraj Mohalla

1 Mr N Desikachar B A
2 „ C Narasimhaiya, B A , B L
3 „ M S Krishnaswami Rao

Chamaraj Mohalla

1 Mr B R Krishnamachar, B A., B L
2 „ A Krishna Rao, B A , B L

Devaraj Mohalla

1 Mr M Rangaiengar

Mandi Mohalla

1 Mr R G Hardakar
2 „ Abdul Aziz Pasha

Lashkar Mohalla

1 Mr K Chandrasekhariah, B A , B L
2 „ Charles Theobald

Appendix II shows details under this head

6 *Houses* —The total number of houses at the close of the year was 14,532 as against 12,650 in the previous year The increase is due to new buildings constructed during the year and also to the omission to include houses enjoying exemption of assessment and separate houses for which sub-numbers had been given in the accounts of last year From this it will be seen that building operations in the City are progressing satisfactorily Taking the population of the City as 71,306 according to the Census of 1911, the average number of inmates in each house comes to 4 91 as against 5 63 in the previous year But according to the occupation Census taken during the year, the population of the City was found to be 67,496 of whom 18,009 are the persons that follow definite occupations in the City

Appendix No III furnishes details under this head

7 *Working of Committees* —The following Committees worked during the year —

1 The Managing Committee
2 The Health Committee
3 The School Committee
4 The Water-supply and Lighting Committee
5 Market Town Hall Committee
6 Buildings, Roads and Avenue Committee
7 The Committee to devise means for the convenience of visitors and travellers
8 The Audit Committee

1 *The Managing Committee* —This consisted of 9 members all of whom were Municipal Councillors It met 27 times during the year against 28 times during last year and disposed of matters pertaining to Municipal Finance, etc, and also submitted recommendations in matters referred to it for decision or report It may be noted here that the members of this Committee took a keen and active interest in the disposal of questions brought before them

2 *The Health Committee* —This consisted of 9 members of whom 6 were Councillors and 3 non-Councillors Two more members were appointed as resolved by the Council in the month of May 1917, and they were also Councillors It met 10 times during the year against 6 times in the previous year, and discussed matters relating to Public Health, Sanitation etc The average attendance of official and non official members was 50 per cent and 41 11 per cent respectively

3 *The School Committee* —The School Committee consisted of 9 members including 3 non Councillors The Committee met 11 times during the year as against 10 times in the previous year and discussed with other matters also relating to compulsory Education scheme in the City and the re-organisation of Municipal Schools

4 *The Audit Committee* —The Government having in their Order No 5212-25—Ml 126 15 2, dated 18th January 1916 sanctioned the formation of an Audit Committee, this Committee, met 11 times during the year and attended to the work of Municipal Finance, accounts, etc It consisted of 3 members all of whom were non official Councillors The members of this Committee have very carefully scrutinized the accounts of the Council and thus set right several mistakes and omissions found therein The want of an adequate and efficient staff in the several departments has been the means of a large number of avoidable errors and omissions A scheme for revising the staff is under the consideration of the Council and will be submitted to Government soon

5 *The Town Hall Committee* —The Town Hall Committee was combined with the Market Committee during the year The work of this and other Committees was also fairly satisfactory

Appendix IV furnishes details under this head

8 *Bye laws, Rules, and Regulations* —The following Bye-laws under the Municipal Regulation submitted to Government were sanctioned during the year

1 Bye-law under Section 48 JJ regarding the Registration of vehicles

2 Government Order No 1060-9—Ml 79-14 51, dated 3rd August 1916 reducing the duty on betel leaves from pies 2 to pie 1 per 100

3 Government Order No 5806—Ml 151-16 5, dated 7th March 1917 regarding the taxes leviable on double and single bullock carts

The Kannada translation of all the bye laws was completed and printed during the year at a cost of Rs 185

9 *Fresh imposts, taxes and fees, etc* —No fresh taxes or imposts were levied during the year Proposals for the levy of separate drainage cess for the maintenance of under-ground sewage system and a general sanitary cess are under consideration The question of raising the tax on vehicles and animals in conformity with the rates prevailing in Bangalore City is also under the consideration of the Council

10 *Assessment and taxations* —The assessment survey work being completed in the previous year, the work of calculation of the area was undertaken during the year

11 *Demand, collection and balance* —The total demand including arrears was Rs 2,67,214 as against Rs 2,94,913 in the previous year The current demand was Rs 2 51,932 against Rs 2,64,833 in the previous year Appendix V furnishes details under this head

The total collections under all heads was Rs 2,44,081 as against Rs 2,67,016 in the previous year Of this Rs 2,38,711 or 94 75 was for the current demand and Rs 5,370 was towards arrears Arrears of assessed taxes aggregating to Rs 804 having been found irrecoverable were written off the account during the year The decrease in collection is mainly due to non-adjustment of contributions from Government

Of the balance of Rs 22,329, Rs 9,108 are balance of arrears of previous years and Rs 13,221 balance at the end of the year This balance includes the shop water tax sanctioned by Government during the year about which the people are complaining and which amounts to Rs 1,860 and Rs 860 tax on buildings to be recovered from Government The prevalence of plague of a serious nature during the greater part of the year and of cholera in the latter part, is the chief reason for the shortage in collection as several people in almost all the mohallas had evacuated their houses on account of these epidemics Excluding Octroi and tolls, the demand under other heads amounted to Rs 71,746 as against Rs 83,823 in 1915 16. Of this, Rs 52,297 or 72 9 per cent was actually collected and only Rs 804 or a little more than one per cent was remitted While in 1915-16 out of a demand of Rs 83,823 only Rs 58,234 or 69 2 per cent was actually collected and Rs 12,615 or nearly 15 per cent was remitted Thus it will be seen that though the balance appears larger than last year, the collections are really better in spite of the serious drawbacks mentioned above Fourteen civil suits were filed for recovery of taxes and 9 resulted in decrees and 4 are pending and 1 was settled out of Court The fact that even after decrees were passed, the taxes are not paid shows the urgent need for more stringent processes for recovery of taxes from refractory persons Some such provision as exists in Madras and the Civil and Military Station Municipalities for prosecuting habitual defaulters in Criminal Courts as already proposed in the list of amendments to the Municipal Regulation submitted to Government is necessary

Appendix VI shows the incidence of taxation per head of population which comes to Rs 2 6-10 as against Rs 2 9-1 in the previous year

PART II - FINANCIAL POSITION

12 *Financial position* —Appendix No VII explains in detail the financial position of the City Municipality The year opened with a balance of Rs 37,481 as against Rs 53,004 in the year previous The total receipts during the year from all sources was Rs 2,44,081 as against Rs 2,42,016 in the previous year, as audited by the Comptroller After the current years figures are audited and adjusted by the Comptroller it is expected that the receipts would go still higher The total expenditure during the year under report was Rs 2,39,990 against Rs 2,45,415 in the previous year The closing balance at the end of the year

comes to Rs 41,572 as against Rs 49,605 of last year, besides Rs 26,778 deposited in the Bank of Mysore, Ltd

PART III —RECEIPTS

13 *Octroi* —The only change in the list of dutiable articles is the reduction of tax on betel-leaves from 2 pies to 1 pie on 100 The total amount of duty collected during the year was Rs 92,639 as against Rs 93,556

Seven cases of smuggling were detected in which 10 culprits were involved Of these 6 were convicted, 2 were acquitted, 1 was pending and 1 was unknown A sum aggregating to Rs 65 was recovered from them as fines imposed in the Bench Magistrate's Court and Rs 102 were realised from the sale of property produced in Court

Appendix VIIIA and VIIIB furnishes the required particulars under this head.

14 *Taxes on Houses, Buildings and Lands, etc* —The total demand under this head including arrears was Rs 99,956 as against Rs 1,15,693 in the previous year Out of this, a sum of Rs 80,507 was actually collected and Rs 804 found irrecoverable was written off the accounts So that the actual recoverable balance at the close of the year was Rs 18,645 The percentage of collection to the demand comes to 81 3 as against 88 2 in the previous year Excluding remissions the actual collections are higher than in last year as shown in para 11 *supra*

15 *Pounds* —The income derived from cattle pounds during the year was Rs 4,070 against Rs 2,414 in the previous year With a view to put down the nuisance caused by stray cattle to motorists and others, a special staff of 8 coolies on Rs 7 each and the system of awarding ¼ of the fines as reward to other impounders were continued during the year This has resulted in an increase in the pound revenue and also in putting down the nuisance of stray cattle to a great extent

16 *Public conveyance* —The rules under the Public Conveyance Regulation worked well during the year and the special Inspector appointed for the purpose also worked satisfactorily A sum of Rs 429 as license fees was collected during the year as against Rs 537 in the previous year

17 *Revenue derived from Municipal property and powers apart from taxation* —The income under this head was Rs 24,233 against Rs 22,696 in the previous year Appendix VIII furnishes in detail the required information

18 *D Grants and contributions* —Adjustments effected under this head have been intimated by the Comptroller to the extent of Rs 6,009 Besides the above, a sum of Rs 500 has to be received from Palace for the conservancy and lighting charges of Mirza Road The charges for the following items due to Municipality are also pending adjustment at the end of the year

1 Part of license and surcharge fees
2 Road repairing charges
3 Moiety of the Plague charges

19 *E Miscellaneous* —The total amount realised under this head was Rs 4,067 as against Rs 1,015 in the previous year The increase is due to adjustment of lapsed items under deposit during the year

20 *F Public Debt* - The total amount received under this head was Rs 32,556 against Rs 27,157 The increase is due to the recovery of the advance amount paid to Compulsory Education Schools

PART IV —EXPENDITURE A

A General Administration

21 *Collection* —During the year under report the establishment for the collection of assessed taxes was directly under the control of the Vice President, the Octroi establishment continuing as before to be under the immediate charge of Octroi Daroga, whose work was also under the supervision of the Vice-President

B PUBLIC SAFETY

22 *Lighting* —There were 967 Electric lights at the beginning of the year and only 10 lights were newly installed during the year The total amount spent

for electric lights during the year was Rs 16,565 as against Rs 14,641 in the previous year The increase is mostly due to payments in the current year for lights installed in the previous year

In addition to the above, there were 251 Kerosine Oil lights in the City during the year as at the close of the previous year and the amount spent therefor was Rs 3,054 as against Rs 3,822 in the previous year A recommendation has been made to Government to replace these lights by electric lights

23 *Rewards for destruction of wild animals* —A sum of Rs 216 was spent as rewards for the destruction of stray and rabid dogs and snakes as against Rs 196 spent in the previous year Eight hundred and forty seven stray dogs and 63 snakes were reported to have been killed during the year

24 *C Public works executed by the Public Works Department* —No works of the Municipality were executed by the Public Works Department during the year

25 *D Public works executed by the Civil Department* —The total expenditure incurred under this head during the year was Rs 42,392 against Rs 57,991 in the previous year

Original Works —Under original works Rs 6,456 was spent during the year against Rs 9,128 in the previous year The following were the chief works carried out during the year —

		Rs
1	Construction of Chamaraj Market	1 624
2	Construction of stalls in Lakshmivilasa road	352
3	Construction of mutton stall in Krishnaraja Mohalla	315
4	Construction of sweepers huts in Jalapuri	431
5	Opening out a new burrial ground for the Chamundi Extension	1 781

Tools and Plant —A sum of Rs 221 was spent during the year for the purchase of tools and plant as against Rs 544 in the previous year

26 *Roads* —The total expenditure incurred under this head was Rs 29,907 as against Rs 29,994 in the previous year During the year under report, 7½ miles of important roads of different width were metalled and one mile was gravelled Ten miles of lanes were opened or repaired both by Kalihath gangs and under special estimates

27 *Drains* —Four hundred and thirty four running feet of tunnels and 872 feet of both masonry and slab drains were built during the year at a cost of Rs 2,027 as against Rs 2,752 of last year

28 *Water-supply and Maintenance* —The Vani Vilas water works continued to be under the management and control of the Public Works Department, the Municipality as usual paying only the general water rate recovered on lands and buildings and excess water charges from house connections

The water-supply in the City cannot be said to be adequate as there is a great demand for more public fountains A comprehensive scheme of water-supply for the whole City is pending before the Chief Engineer As no definite orders are received, the complaints from the people are becoming louder and more incessant

The number of private house connections given during the year was 98 against 106 in the previous year The total number of public fountains existing in the City at the close of the year was 366

29 *Buildings* —As stated in para 26 *supra*, a sum of Rs 6,456 was spent on original works as against 9,128 in the previous year

E Public Health and Convenience

30 *Conservancy* —The Health Officer continued to be in charge of the Conservancy Department There were no changes in the number of public latrines during the year The proposal to introduce daily conservancy system for the whole city is under consideration Vigorous measures are being adopted to convert all pit privies into daily conservable latrines The total amount spent under this head was Rs 49,126 against Rs 47,987 of last year

Public Health —The public health of the city was rather unsatisfactory during the year as both plague and cholera prevailed during different parts of the year

Plague —There were 1,089 attacks and 776 deaths from plague during the year against 33 attacks and 25 deaths in the previous year The disease unlike in the preceding year broke out in an epidemic form and was severe A special inoculation staff was entertained for the purpose during the year and they not only inoculated the people but also went round the City preaching and explaining to the inhabitants the advantages and benefits they would derive by inoculation

It is really gratifying to note that more than one-tenth of the population of the City was inoculated during the year under report Special arrangements were also made to inoculate Ghosha ladies through the Lady Assistant Surgeon of the Vani Vilas Hospital

The total number of inoculations performed was 8,147 against 5 in the previous year, of these 5,864 were males and 2,593 were females

There were only 9 attacks and 2 deaths among the inoculated (8,447) During plague season all possible facilities were afforded to the public by way of running temporary sheds, etc, in Idiga, Ittigegud, Nazarbad, Chamundi and the new Jalapuri Extensions which were readily availed of by the people

In addition to all these arrangements, leaflets on plague in English, Kannada and Hindustani were prepared and distributed to the people

During the year under report, the Isolation Hospital and the Health Office were connected with the general Telephone system of the City which afforded great help to the Municipal Executive and general public in connection with infectious diseases

Cholera —This disease made its appearance in the City after 45 imported cases from different parts of the district which were badly infected during the year Imported cases were chiefly from Seringapatam, Nanjangud and Krishnarajasagara Works The Dire disease which first broke out on 30th March 1917, though slow in progress kept on steadily to the end of the official year and continued to the middle of August 1917

There were 144 attacks and 104 deaths against one and one imported in the previous year of which 70 attacks and 52 deaths were imported The chief source of infection was flies, which for want of timely rains during the year, increased to an alarming extent, very unusually this year

All preventive measures were adopted to check the Dire disease A large number of wells were closed by being covered up with heavy slabs and pointed with cement to prevent the public from taking water from such foul wells and other wells which could not be so closed were hankanised Health leaflets on prevention of cholera in English, Kannada and Hindustani were prepared and freely distributed to the public and were also hung up in conspicuous places in Post Offices, Reading Rooms, Police Stations, and in other public places Packets of Permanganate of Potash were specially got distributed by a temporary staff entertained for the occasion

At the request of the Principal Maharaja's College, a lecture on cholera was arranged and delivered by the Health Officer to the students of the College One Assistant Surgeon and one Sub-Assistant Surgeon were specially deputed for cholera duties during the season

31 *Sanitary Progress and Defects* —As in the previous years all major works were done by the Improvement Trust Board and the Municipality attended only to minor defects The Sanitary Inspectors made 27,446 inspections of houses during the year as against 18,863 of last year in connection with internal sanitation Six hundred and seventy six notices under various sections of the Municipal Regulation were issued to abate sanitary nuisances

Eighty cases were instituted by the Sanitary Inspectors under various sections of the Municipal Regulation of which 37 ended in conviction, 25 in acquittal and the rest 17 were withdrawn as the parties complied with the terms of the notice Of the total number prosecuted 11 were in connection with registration of Births and Deaths

The special staff appointed for anti-mosquito work continued during the year and did much useful work by assisting in closing a large number of disused wells and by providing trap doors fitted with wire netting to the mouths of other wells

so make them mosquito proof and by draining and filling up many pools, etc , where mosquitoes were found to be breeding

32. *Local Fund Dispensaries aided by the Municipality* —The number of Local Fund Dispensaries remained the same as last year, *i e* , one in Erangere, one in Old Agrahar, one in Nazarbad and one in Weaver's Line

33 *Midwives and Maternity* —There were eight midwives during the year against seven in the previous year including 4 midwives attached to the Vani Vilas Hospital The total number of cases attended to by them was 753 against 638 in the previous year The midwives are reported to have worked satisfactorily Appendix No XIV gives details under this head

34 *Indigenous Hospitals, Hindu Vaidyasalas, Vaidyas, Hakims, etc* —There were 5 Indigenous Hospitals during the year as against 4 in the previous year The total cost incurred under this head as well as for Local Fund and other dispensaries was Rs 9,554 against Rs 9,616 in the year previous The total number of patients that were treated were 292,234 against 258,944 in the previous year Appendix XIII furnishes details under this head

35 *Other Medical Institutions subsidised from Municipal Funds* —The Municipality continued to contribute ⅓ of the cost of the Vani Vilas Hospital in the City

36 *Plague, Cholera and other charges* —Details under this head have been furnished in para 31 In addition to the above, the public water-supply was examined once a week and during cholera season, it was examined every day particularly for cholera infection in the laboratory attached to the Health Office

Small-pox —Twelve persons were attacked with small-pox during the year against 34 in the previous year The number of deaths among them were 10 and 12 respectively Of these two attacks and two deaths were imported The usual preventive measures such as vaccination and disinfection of infected houses were resorted to

37 *Vaccination* —Vaccination continued to be compulsory as in previous years Five thousand four hundred and forty-three persons were vaccinated during the year against 5,437 in the previous year Of the total number vaccinated, 4,466, 373 and 604, were respectively successful, unsuccessful and unknown No untoward result was noticed among the vaccinated as the lymph supplied by the Vaccine Institute was good

One thousand three hundred and thirty-three houses were disinfected during the year for Plague, Cholera and Small-pox, etc Of these 687 were for plague, 90 for suspicious fever, 81 for dead rats, 123 for Cholera and 62 for suspicious Diarrhœa

38 *Veterinary charges* —The total number of cases that attended the Hospital in the year under report was 13,043 against 13,172 in the year previous, giving an average daily attendance of 35 7 as against 36 1 in the previous year Of these, the number of fresh cases was 4,021 against 3,598 in the previous year There were in all 321 operations during the year as against 313 in the previous year of which 81 were for castration and 36 in-patients as against 46 and 31 in the previous year respectively The work of shoeing horses has been made a branch of the Hospital work The total amount collected during the year was Rs 193 as against Rs 106 in the previous year

The Municipality contributed Rs 140 during the year as against Rs 134 in the previous year towards the maintenance of the Hospital

The building and the locality in which the Hospital is situated are quite unsuitable for the purpose A good building of an up to date design in a good locality is an immediate necessity

39 *Registration of Births and Deaths* —The total number of Births and Deaths was 3,467 and 3,153 during the year as against 2,371 and 1,958 respectively in the previous year The ratio per 1,000 births was 34 59 as against 33 25 of last year The ratio per 1,000 deaths was 44 2 against 27 8 in the previous year The increase in the number of deaths was due to the out break of plague and cholera in the City

Infant Mortality —During the year there were 412 deaths among children under 1 year against 398 in the previous year, just giving a ratio of 167 004 against

167 86 for 1,000 births registered Out of these deaths 216 were among male and 196 among female

Marriages—During the year under report 268 marriages were registered by the Department as directed by Government in their Proceedings No 1025 75—San 75-13-23 and 6644-714—San 71-15 3, dated 5th August 1915 and 10th March 1916 respectively information being collected by the conservancy staff and the Registrars of Births and Deaths

40 *Public Gardens and Buildings*—The Rangacharlu Memorial Hall and Peoples' Park continued to be in charge of the Municipality and a sum of Rs 1,878 was spent for their maintenance as against 1,840 in the previous year The excess expenditure is due to purchase and supply of seeds and plants to the Park.

41 *Market and Slaughter Houses*—There were 3 markets including the small market in the Vani Vilas road and 2 slaughter houses under the Municipality, and a sum of Rs 1,329 was spent for ther maintenance as against Rs 1,309 in the previous year The revenue realised under this head was Rs 13,455 as against Rs 13,298 in the previous year The increase was due to better collection as a result of strict supervision

The affairs of the Market and Town Hall were managed by a Special Committee appointed for the purpose The Markets, were regularly inspected by the Officers of the Health Department and all rotten foods and vegetables, etc, unfit for use were got destroyed The vendors were forced to expose foods, sweets cut fruits, etc, only in glass show-cases The slaughter houses continued to be under the supervision of Health Officer assisted by the Veterinary Inspector and the system of slaughtering animals in the evenings was continued during the year Forty-eight thousand six hundred and ninety-nine animals were slaughtered during the year against 42,888 in the previous year

42 *Avenues*—The services of the Avenue Inspector entertained during the previous year were continued during the year under report, and the comprehensive scheme prepared for planting the avenue trees in all important roads in the City is being worked out by the Trust Board The cost incurred by the Municipality in this direction was Rs 1,103 for planting and maintaining 914 avenue trees as against Rs 1,221 spent in the previous year

43 *Fairs and Festivals*—The total amount spent under this head during the year was Rs 4,775 against Rs 3 841 in the previous year The increase is chiefly due to increase in the rates of decoration articles, etc

44 *Sewage Farm*—No sewage farm was being maintained during the year by the Municipality and it is proposed to take over the septic tank and its distributory channels from the Trust Board and to work the sewage farm thereunder

F Public Instruction

45 *Municipal and Grant-in aid Schools*—The total number of schools during the year in the City was 26 against 29 in the previous year, of which 6 were purely Municipal schools and 20 grant-in aid schools The total cost incurred for these schools during the year was Rs 7,511 as against Rs 10,696 in the previous year The reason for the decrease in expenditure is due to the introduction of Compulsory Education Scheme by which some of the grant-in-aid schools were taken under Compulsory Education Scheme and the withdrawal of grants paid to pial schools

At the beginning of the year under report, there were 7 schools under Compulsory Education Scheme, 7 more were added during the year, thus making a total of 14 schools under Compulsory Education Scheme at the close of the year Appendix XVII furnishes details under this head These schools were maintained from State Educational Funds

According to the Census taken during the year of boys of school going age, the total number of boys was 4,012 of which 2,712 were attending schools and 1,300 were found not attending any schools Steps are being taken to see that these 1,300 boys also attend schools and take regular course of instruction

G CONTRIBUTIONS AND GRANTS-IN-AID

46 *Public Reading Rooms and Libraries* —No expenditure was incurred under this head during the year

H MISCELLANEOUS

47 *Interest on Debt* —No Interest had to be paid during the year as the amount due by the Municipality to the Government is fully paid up

I PUBLIC DEBT

48 *Fixed Deposit* —A sum of Rs 26,778 was kept as fixed deposit in the Mysore Bank, Ltd , as per Government Order No 3995-8—Ml 97-14-10, dated 1st December 1915, and interest at 5 per cent per annum is being realized and added on to the principle amount once in 6 months

PART V —MISCELLANEOUS

49 *Public Health* —This subject has been fully explained in para 38 *supra* In addition to the above, the most important work of providing windows to ill-ventilated houses in the City was continued during the year Four thousand eight hundred and thirty one windows without shutters were fixed to private houses to admit free light and air of which 1,330 were supplied by the Municipality and 3,501 were put up by the people themselves

Building Licenses —Building operations in the City having steadily increased, the two Building Inspectors appointed during the previous year were continued during the year under report They not only supervised all buildings under construction and checked encroachments and deviations from sanctioned plans, but also readily attended to license applications

License Applications —There were 2,313 license applications during the year of which 2,126 were for construction of buildings and repairs and 187 under hackney carriage rules of which 1,053 were granted, 197 were re used and 63 were pending disposal at the end of the year

50 *Audit of Accounts and Embezzlements* —As usual, the monthly accounts of the Municipality were audited by the auditors of the Local Audit Committee in the form prescribed by the Government and they audited the accounts of the year under report, and no cases of embezzlement of Municipal Revenue were detected

Civil Suits —There were 14 civil suits filed by the Municipality during the year for the recovery of Municipul dues of which in 9 cases decree was passed in favour of the President, 4 were pending at the close of the year and one was settled out of Court Appendix XVIII furnishes details under this head

Prosecutions - Hundred and five cases including 19 cases pending at the beginning of the year involving 109 persons were prosecuted during the year, of which 39 were convicted, 46 acquitted, 19 withdrawn and 5 pending The amount of fine imposed was Rs 111

General Remarks —It will be observed from the foregoing that the period under report was one of great activity and substantial progress in spite of the prevalence of plague and cholera during the greater part of the year From a comparison with the reports of three previous years, it will be seen that progress and improvement have been steady and continuous The different committees appointed not only worked with interest and zeal but were a source of real help to the executive Primary Education under Compulsory Education Scheme has made substantial progress Vigorous measures were taken for the collection of longstanding arrears and such of the items as were found absolutely irrecoverable and entitled to exemption were written off the accounts In spite of the prevalence of plague and cholera particularly during collection season, the collection was satisfactory as shown in para 11 *supra* Effective measures were adopted to collect not only the current year's demand but also the old arrears the prevalence of the epidemics abovementioned having seriously hindered better progress The substantial increase noted under Octroi continued to be maintained in spite of adverse

seasonal war and other conditions This was due to vigilant supervision and strict control over the Octroi Department A large number of cases of smuggling taken to Court shows the effectiveness of measures taken under this head During the year under report, it is unfortunate that the health of the City, was rather unsatisfactory owing to the prevalence of plague and cholera in an epidemic form Every endeavour was made by the Health Department to combat the diseases

With a view to give increased representation to the different mohallas which are expanding on all sides by the formation of new extensions, and to give effect to the Orders of Government on the Local Self-Government Scheme to increase the proportion of elected Councillors, the Municipal Council proposed the raising of the number of elected Councillors from 10 to 20 and increasing the total number to 30 This was approved by Government Ten additional Councillors, were elected during the year and their elections were duly approved by Government These Councillors will join the Council from July 1917 The non-official Councillors continued to evince much interest in the Municipal Administration and greatly helped the executive with their valuable suggestion and advice The system of weekly inspections of mohallas with the Municipal Councillors was continued and has been the means of affording opportunities for the public to have their complaints attended to promptly It may be also mentioned here that the new school constructed by Mr Dharmaprakasha Banumiah was opened by His Highness the Yuvaraja of Mysore and the Girls' School constructed by Mr Lokasevanıratha Mr Amble Anniah Pandit was completed during the year and handed over to the Maharani's College Committee The construction of a Students' Home by Mr Mannar Krishnasetti, a Dispensary by Mr N Krishnaswami Rao, and a chattram by Alamma, wife of J K Narasimiah are nearing completion and will be fit for use very soon

With a view to improve the efficiency of subordinate staff of the Municipality by providing adequate remunerations consistent with the present rise in prices of food grains and other necessaries of life and also to provide sufficient number of sweepers and conservancy carts for the effective conservancy of this ever expanding Municipality, a comprehensive scheme for the revision of establishment was prepared and submitted to Government for sanction As the Government have sanctioned only the conservancy establishment, the proposal to increase the pay and allowance of the subordinate staff having been deferred for finding ways and means to meet the cost The subject of finding out new sources of revenue to augment the resources of the Municipality and to provide for the extra cost for improving the subordinate staff, is engaging the consideration of the Council and definite proposals will be submitted in due course As at present, the Municipality is under-manned and the officials are low paid, great difficulty is felt and efficient work cannot be expected In spite of inadequate remuneration, the staff have showed much interest in their work in anticipation of Government sanctioning the revision of establishment proposed

T LAKSHMANA RAO,
President,
City Municipal Council, Mysore

APPENDIX I

Statement showing the constitution of the Municipality in the City of Mysore during the year 1916 17

Serial No	Name of Municipality	Regulation under which constituted	Date of constitution	Area in square miles	Number of rate-payers	Population within the area	Number of members on the last day of the year
